

COMPANY PROFILE

THE COMPANY

adesso Schweiz AG is an independent IT service provider with a focus on consulting, individual software development and integrating software into company's core business processes. adesso's strategy is built on three pillars: its employee's comprehensive industry expertise, a broad range of technological skills and proven methods for implementing software projects. This approach provides company's with IT solutions that boost their competitiveness. Our employees are entrepreneurial thinkers with excellent communication skills. adesso Schweiz AG was founded in 1985 and is part of the adesso Group. The Group employs a team of around 5,100 employees at numerous locations in Europe.

SERVICES OFFERED

adesso helps you optimise your IT-based business processes, from strategy consulting through designing the IT architecture to application development. Its solutions are based on modern technology, such as Java and Microsoft .NET. adesso also works with BPM products such as Red Hat BPM Suite and Activiti (open source). With a wealth of project and industry experience gained from long-term customer relationships, adesso is a professional partner for software projects of all sizes. With the "New School of IT", adesso is laying the foundations for a confident IT strategy that encompasses the three major technology trends: mobility of business processes and customers, agility in the development of information systems and elasticity of IT infrastructures.
